# Table of Contents

## Description      Page

- 4 year-olds      2, 3
- 5-6 year-olds      4, 5, 6
- 7-10 year-olds      4, 5, 6
- 9-11 year-olds      5
- Overview      7,8
- Registration FAQ's      9
- Registration Form      10

**So much fun...  
they will never know they  
are learning!**

**Our Summer Workshops  
offer age appropriate  
activities for children  
ages 4-11 year-olds.**

## Upcoming Events

### **Mother's Day Weekend with Clifford™**

**Friday, May 10th & Saturday, May 11th**  
Celebrate Mother's Day weekend with an ice cream social while wishing Clifford Bone-Voyage during his last week. Silhouettes with Patti Rishforth.

### **Magic Day**

**Friday, June 14th 10am-5pm**  
Enjoy the performances of multiple magicians throughout the course of the day. Children will have the opportunity to create wizard hats and wands in the Muse.

### **Dads, Dinos & Donuts**

**Saturday, June 15th 8am-9:30am.**  
Join us for breakfast donuts, meet a life size dinosaur, create a dinosaur hat and Father's Day art project.

### **9th Birthday Celebration**

**Friday, July 12th 10am-5pm**  
Entertainers will be present during the day and children may create birthday hats and paper cupcakes in the Muse.

### **Superhero Day**

**Friday, August 2nd 10am-5pm.**  
Bring your children dressed in their favorite Superhero costume and enjoy decorating capes in the Muse and taking photos with our handmade skyline backdrop.

### **Shake Your Summer Sillies Out**

**Friday, August 9th 10am-5pm**  
Celebrate back to school with one last big summertime bash. The day will feature games, live music, art projects and face painting.

# Summer Hours

The Museum is open 7 days a week from Memorial Day to Labor Day  
Monday to Saturday 10am-5pm    Sunday Noon-5pm  
The Museum will be CLOSED on Thursday, July 4th

# Discovery Workshops

4 year-olds

Children must be 4 years old by June 3rd, 2019

Especially designed for 4 year-olds, these classes magically enforce creative play for appropriate childhood development in an environment that fosters creativity and promotes self-expression. Children discover and explore new topics presenting hands-on activities to excite and develop a young child's imagination through the arts and dramatic play, while squishing, sorting, mixing, swirling, collecting or building.

**Classes meet for three hours, twice a week on Monday/Wednesday OR Tuesday/Thursday.** Please check class schedule for dates and times.

## A Circus Life for ME

Make a clown hat, eat popcorn, delight in the art of clown face-painting, with a professional clown, and practice the art of balloon sculptures while exploring the art of Alexander Calder (he invented the mobil) by creating circus mobiles.

## Crazy About Critters

Filled with stories, games, crafts and special guest presenters sharing their furry, feathered and scaly animal friends, this class builds self-confidence and fulfills the natural curious nature of children, while discovering some of nature's "crazy critters."

## Hats off to Dr. Seuss

Celebrate the wacky and magical imagination of Dr. Seuss, whose literary influence has captivated the attention of young children to discover rhyming concepts, alliteration, vocabulary, counting and color. Children will enjoy the company of delightful characters through various popular books, while building vocabulary and discovering some simple life lessons through art curriculum and hands-on activities. Oh, the places they'll go.....

## Insects, Dinosaurs and Mammals

Filled with projects and hands-on activities, young paleontologists become familiar with many different dinosaurs and other strange and exotic prehistoric creatures. Discover various facts about "a bug's life" while building an insect house and exploring how mammals are like you and me.

## LEGO® Frenzy

Little engineers design, build and create with various beginner and advanced LEGO® kits discovering the basic principles of construction, engineering and simple science principles, while building critical thinking skills.

# Discovery Workshops

4 year-olds

Children must be 4 years old by June 3rd, 2019

## Life's a Beach

Join us, in our beach environment, building sand castles, discovering sea shells and delighting in hands-on sand play experiments.

## Once Upon A Time

Children bring selected fairy tales to life with hands-on immersion, experiencing different art processes to create projects and activities, using creative and imaginative play to explore their characters and life lessons.

## Silly Scientists

Hands-on activities invite children to discover and formulate cause and effect relationships with familiar objects. Become a mad mixer and turn some well-known and, some not very well-known, substances together to make slime or bubbly concoctions to gather facts about volcanoes and other related topics.

## Storybook Art

Children are presented with opportunities to be aware of a chosen children's book's graphics and illustrations by combining tactile artistic activities that accompany the style of the story's illustrator and the theme of the story. While enjoying the story, children become more aware of the illustrations and the medium used by the artist to illustrate the story.

## Superheroes Adventure

Superheroes have captivated the imaginations of children for many years. Young super heroes will decorate their own capes and masks, play familiar games to discover interesting facts about well-known super-heroes and make special "super power" snacks.

## The Ace of Arts

An art-making journey into the world of color, shapes and textures, experimenting with various mediums, while developing a child's awareness of art in everyday life.

## To Infinity and Beyond

Become an amateur astronomer, while pretending to travel to the depths of the universe, discovering exciting facts about our solar system and creating space vests and other space creations.

Same workshops,  
different year,  
new projects and  
activities!

### Array Of Clay

Explore and share in the magical versatility of clay by building coil pots, pinch pots, beads and masks. Adding embellishments, such as straw, found objects or small colorful objects creates results to be cherished for many years to come.

### ARTistik Adventure

The young artist with a serious love for art will journey through our metropolis of art, exploring various art mediums such as paper maché, building clay creations, painting with assorted mediums or extended drawings, while encouraging young artists to express their own impressions and insights into their artwork. Join us in this festival of mediums focusing on the process of art to explore new art ideas and techniques.

**NEW**

### Cardboard, Paper, Scissors

Journey through the art of creating and embellishing various paper projects using scissors, paints and other creative embellishments. Experience the process of making paper from used and discarded paper products. This is a delightful exploration of the endless possibilities of how old and new paper, different cardboards or little and big paper can be used to create other “art” pieces such as origami, paper maché, jewelry and more.

### Crazy About Cultures

Using the lure of geography, the mysteries of history and the diversity of various cultures and art processes from around the world, artistic travelers explore hands-on interactive activities to experience an imaginary journey through different countries or continents, while discovering and experiencing various facts about food, clothing, art and language. Children’s best discoveries of global awareness are made when experiences are tactile and meaningful in their everyday life.

### Discovering Great Artists

Explore the styles and techniques of some of the world’s greatest artists. Each art process focuses on one style and one artist. A brief biography and portrait of each artist assists children by inspiring them or adding depth to their own art. Artistic projects create opportunities for children to expand the creative experience and to “learn by doing.”

### Dragons, Knights and Wizards, Oh My!!!

With a focus on “medieval madness” children explore some of the highlights of the medieval and renaissance era through castle building out of recycled materials, catapult construction, hats for wizards, dragon or knights and other projects and processes emphasizing the allure of medieval, child-friendly fantasy.

**NEW**

### From Silence to Sound

Creative Theatre Arts Workshop presented by PICCOLO THEATER & RED DOOR THEATRE A lighthearted play that transports us to the bygone days of Hollywood silent films! This theatre arts workshop will teach student creative ways to showcase their talents through dancing, theatre games, making sets and costumes and so much more! Come explore theatre arts and learn how to take-the-stage from Silence to Sound!

# Creative Workshops 5/6, 7/8 & 9-11 year-olds

## Got Science?

Children love science because it catches their attention and engages their curiosity. Our diverse curriculum explores some physical and chemical properties of different elements, compounds and mixtures, as well as venturing into topics like force and motion, constructing and launching small rockets, hands-on "critter" investigations and observations, and more. Different areas of science from natural sciences to social sciences are explored each time the class is offered so that those attending do not get a repeat class, but an introduction to a whole new experience.

## In Good Taste

Through storytelling, healthy, but artistic, snack-making without touching a stove, art activities and music and movement, children discover how to make positive choices in the areas that most affect health. Get your body moving and work up an appetite while experiencing interactive ways to create a healthier lifestyle. Bring an appetite and join the fun!

## Scientifically ARTrageous

Combining the curiosity of science and the beauty of art, children will embrace an exciting opportunity to discover basic concepts of science through art experiences. Knowing that children love to explore, experiment and discover, the focus is to build on this natural curiosity while combining the beauty of art and the fascination of science. Children will share this journey discovering and exploring the combination of art processes with science hypothesis and outcome.

## Just Add Beats

NOTE-Workshop is designed for 9-11 year-olds.

### STEAM Learning With Audio

Shape the world of sound with Just Add Beats, an audio makerspace that introduces students to the process and professional world of writing songs, designing sound effects, and harnessing modern technology to produce recorded audio works. With an audio professional guiding them, students work together in small groups, role playing as creative audio agencies to record original songs and stories, solve real-world audio challenges for clients, and make their artistic voices heard! At the end of the program, students take home a copy of their high-quality, original audio works that can be digitally distributed worldwide on platforms such as Spotify, Soundcloud, and more. No previous audio production or music training is necessary. Join us!

**Really, Really, Really NEW and innovative program for older children-----a real stretch for us!!! Limited number of spaces. Ratio is 1 teacher to 15 students.**

## The Adventures of Captain Book

**NEW**

Creative Theatre Arts Workshop presented by PICCOLO THEATER & RED DOOR THEATRE

Journey through a playful search for buried treasure in this fun theatre arts workshop! Students will explore dancing, staging, blocking, theatre games, making sets and costumes and so much more! Come set the stage and make your debut with The Adventures of Captain Book!

## Trash to Towers

Build beyond the imagination, while discovering the basics of construction wizardry such as engineering, construction design, teamwork and building structures to test the strength and practicality of the architect's designs with new and recycled materials. Young architects can create buildings from milk cartons, water towers from food storage containers or bridges from cereal boxes and used plastic bags to create cities, habitats on another planet or whatever else their imagination presents.

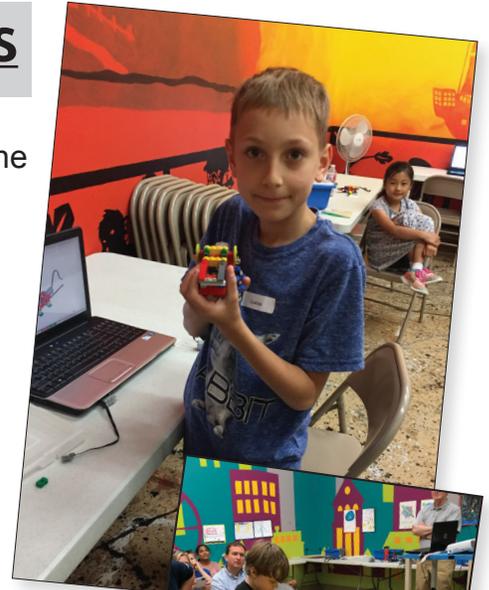

### E.A.R.L.Y Robotics 7-10 year-olds

(Engineering and Robotics Learned Young)

Created by NASA, EARLY robotics is a program exposing 7-10 year-olds to engineering while developing a strong understanding of the basic fundamentals of building and mechanical principles.

Building robots and realistic motorized models from LEGO® kits in a team-building atmosphere, teams select pilots to operate the robot using basic on/off switches manipulating through given obstacles and challenges to help complete the mission. Student engineers gear up for a friendly competition on the final day. Instructors will facilitate more design and more challenging missions to students who have had previous EARLY robotics experience from other qualified programs and/or have participated in EARLY competitions, challenging students to take strategies to the next level.

### LEGO® Frenzy Meets “Righteous” Robotics 5/6 & 7/8 year-olds

Using creative thinking and problem solving abilities, children design and build models with LEGO® pieces and kits to satisfy a specific purpose while exploring basic construction concepts, simple machines and how gears work. Young engineers progress to WeDo™, designed for the early elementary learner, to introduce boys and girls to the early principles of robotics. Children build LEGO® models featuring working motors and sensors, then program their robot models to write stories, solve problems or create innovative projects. Curriculum is designed to develop skills in science, simple technology, engineering and mathematics. Righteous!!!

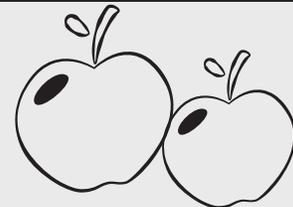

## Lunch Bunch

Price is \$5 per day.

LUNCH BUNCH is offered for children who...

- are signed up for both morning and afternoon classes.
- attend morning classes but cannot be picked up at noon.
- attend afternoon classes but need to be dropped off before 1:00 p.m.

Children are to bring a sack lunch and a drink. A staff member will assemble the children and escort them to a classroom where they will eat lunch and play quiet games, listen to a story, and more. Those who are attending an afternoon class will be escorted to that teacher; those who are leaving the museum will be released to the parent upon sign-out.

# Weekly Class Schedule

## Week 1 (June 3-June 7)

Age	Class Title	Day	Time	Member	Non-Member
4	LEGO® Frenzy	M/W	9am-Noon	\$56	\$76
4	Life's a Beach	T/TH	9am-Noon	\$56	\$76
5&6	ARTistik Adventure	M-F	9am-Noon	\$121	\$141
5&6	LEGO® Frenzy Meets "Righteous" Robotiks	M-F	1pm-4pm	\$121	\$141
7&8	ARTistik Adventure	M-F	9am-Noon	\$121	\$141
7&8	LEGO® Frenzy Meets "Righteous" Robotiks	M-F	1pm-4pm	\$121	\$141

## Week 2 (June 10-June 14)

Age	Class Title	Day	Time	Member	Non-Member
4	Super Heroes Adventure	M/W	9am-Noon	\$56	\$76
4	The Ace of Arts	T/TH	9am-Noon	\$56	\$76
5&6	Dragons, Knights and Wizards	M-F	9am-Noon	\$121	\$141
5&6	Trash to Towers	M-F	1pm-4pm	\$121	\$141
7&8	Dragons, Knights and Wizards	M-F	9am-Noon	\$121	\$141
7&8	Trash to Towers	M-F	1pm-4pm	\$121	\$141

## Week 3 (June 17-June 21)

Age	Class Title	Day	Time	Member	Non-Member
4	Silly Scientists	M/W	9am-Noon	\$56	\$76
4	Hats Off to Dr. Seuss	T/TH	9am-Noon	\$56	\$76

# FREQUENTLY ASKED QUESTIONS

## **Q: Is the museum a non-profit organization?**

Yes! The Woodlands Children's Museum is a registered 501(c)3 non-profit organization. Donations are tax deductible to the extent allowed by law.

## **Q: How do you accommodate my child's needs?**

In order for us to be able to help your child have an enjoyable experience with us, we ask that you notify us at the time of registration of any allergies, accessibility concerns, behavioral, psychological, emotional conditions or other special needs. The Museum reserves the right to determine the compatibility of your child's needs within the program. The Museum is NOT responsible for administering medication to children. Please consult your pediatrician about altering the child's dosage so that medication can be administered outside of our program.

## **Q: How are children supervised?**

Parents or guardians are required to physically bring their child(ren) into the Museum's atrium. Children are supervised at all times and escorted on bathroom breaks.

The Woodlands Children's Museum reserves the right to determine, at our discretion, that a child can be withdrawn from a workshop or request that he/she be accompanied by an adult if the program deems this to be warranted. There will be no refund in the event of our request that a child be withdrawn for disciplinary reasons.

## **Q: May parents stay in the classroom?**

Our programs promote independent learning and socialization. If you feel that your child is unable to remain in class without you for more than a few minutes, we suggest waiting a year before sending him/her to our workshops. Parents are required to sign out their child(ren) at the end of class.

## **Q: Who can I contact during the day if I need to leave a message concerning my child?**

Please call The Woodlands Children's Museum at 281-465-0955, and a staff person will deliver your message or you can e-mail our Educational Coordinator, at [workshops@woodlandschildrensmuseum.org](mailto:workshops@woodlandschildrensmuseum.org).

## **Q: How should my child dress for the classes?**

The best choice is comfortable clothes that may get messy, closed-toe shoes and a sweater, as the classrooms can get cool. Please do not allow your child to wear shoes with rollers.

## **Registration**

One registration form per child. Registration forms with incomplete or inaccurate information cannot be processed. Always select an alternate class in the event your first choice is not available. Fax registration forms to 281-465-0956 or email us at [workshops@woodlandschildrensmuseum.org](mailto:workshops@woodlandschildrensmuseum.org)

## **Cancellations, Exchanges and Refunds**

Each registration with payment is considered a confirmed registration.

Registrations are **NOT** transferable from one child to another.

Please be advised that The Woodlands Children's Museum reserves the right to cancel classes in the event our classes do not meet a minimum enrollment. Patrons will receive a full refund. We appreciate your understanding.

Patrons who desire or need to cancel a registration will receive a **50% refund** of the cost if notification is received at least 5 working days before class begins. Call or email us at [workshops@woodlandschildrensmuseum.org](mailto:workshops@woodlandschildrensmuseum.org)

There are **no refunds** for registrations cancelled less than 5 working days before class begins.

## **Questions and Concerns**

Contact us at 281-465-0955 Monday through Friday from 9:00 am to 4:00 pm or email us at [workshops@woodlandschildrensmuseum.org](mailto:workshops@woodlandschildrensmuseum.org)

## Just Add Beats New for 9-11 year-olds

Shape the world of sound with Just Add Beats, an audio makerspace that introduces students to the process and professional world of writing songs, designing sound effects, and harnessing modern technology to produce recorded audio works.

## From Silence to Sound New for 5/6 and 7/8 year-olds

Creative Theatre Arts Workshop presented by PICCOLO THEATER & RED DOOR THEATRE. A lighthearted play that transports us to the bygone days of Hollywood silent films! This theatre arts workshop for 5/6 and 7/8 year-olds will teach student creative ways to showcase their talents through dancing, theatre games, making sets and costumes and so much more! Come explore theatre arts and learn how to take-the-stage from Silence to Sound!

Visit, stay and play! The Woodlands Children's Museum is ideal for children 7 years of age and under, providing hands-on play experiences and daily interactive activities. Admission fee is valid all day. Conveniently located in the Panther Creek shopping center. Come back to play after having a meal at one of the neighboring restaurants.

**Come see us soon and be part of our growing community!**

**Museum Hours: Tues-Sat: 10am-5pm Sun: Noon-5pm Open 7 Days a week from Memorial Day - Labor Day.  
Admission: \$7 per person age 1 year and older. Members are FREE.**
